About Us.

Introduction

Ambica Enterprise, established in 2014, is a leading provider of engineering and fabrication services, catering to a diverse range of industrial needs. With a vision to deliver exceptional craftsmanship and technical expertise, we specialize in offering end-to-end solutions for structural fabrication, metallic and non-metallic piping, maintenance, equipment placement, valve installation and servicing, acid bricks lining, pump installation, and pump alignment. Over the years, our unwavering commitment to excellence has earned us a strong reputation among clients across various industries.

Our approach is characterized by a relentless focus on quality, innovation, and client satisfaction. We prioritize building lasting relationships by understanding the unique requirements of each project and delivering tailored solutions that enhance operational efficiency and sustainability. Backed by a skilled workforce and state-of-the-art infrastructure, Ambica Enterprise is well-equipped to handle projects of varying complexity and scale, ensuring the highest standards of performance and reliability.

Mission & Vision.

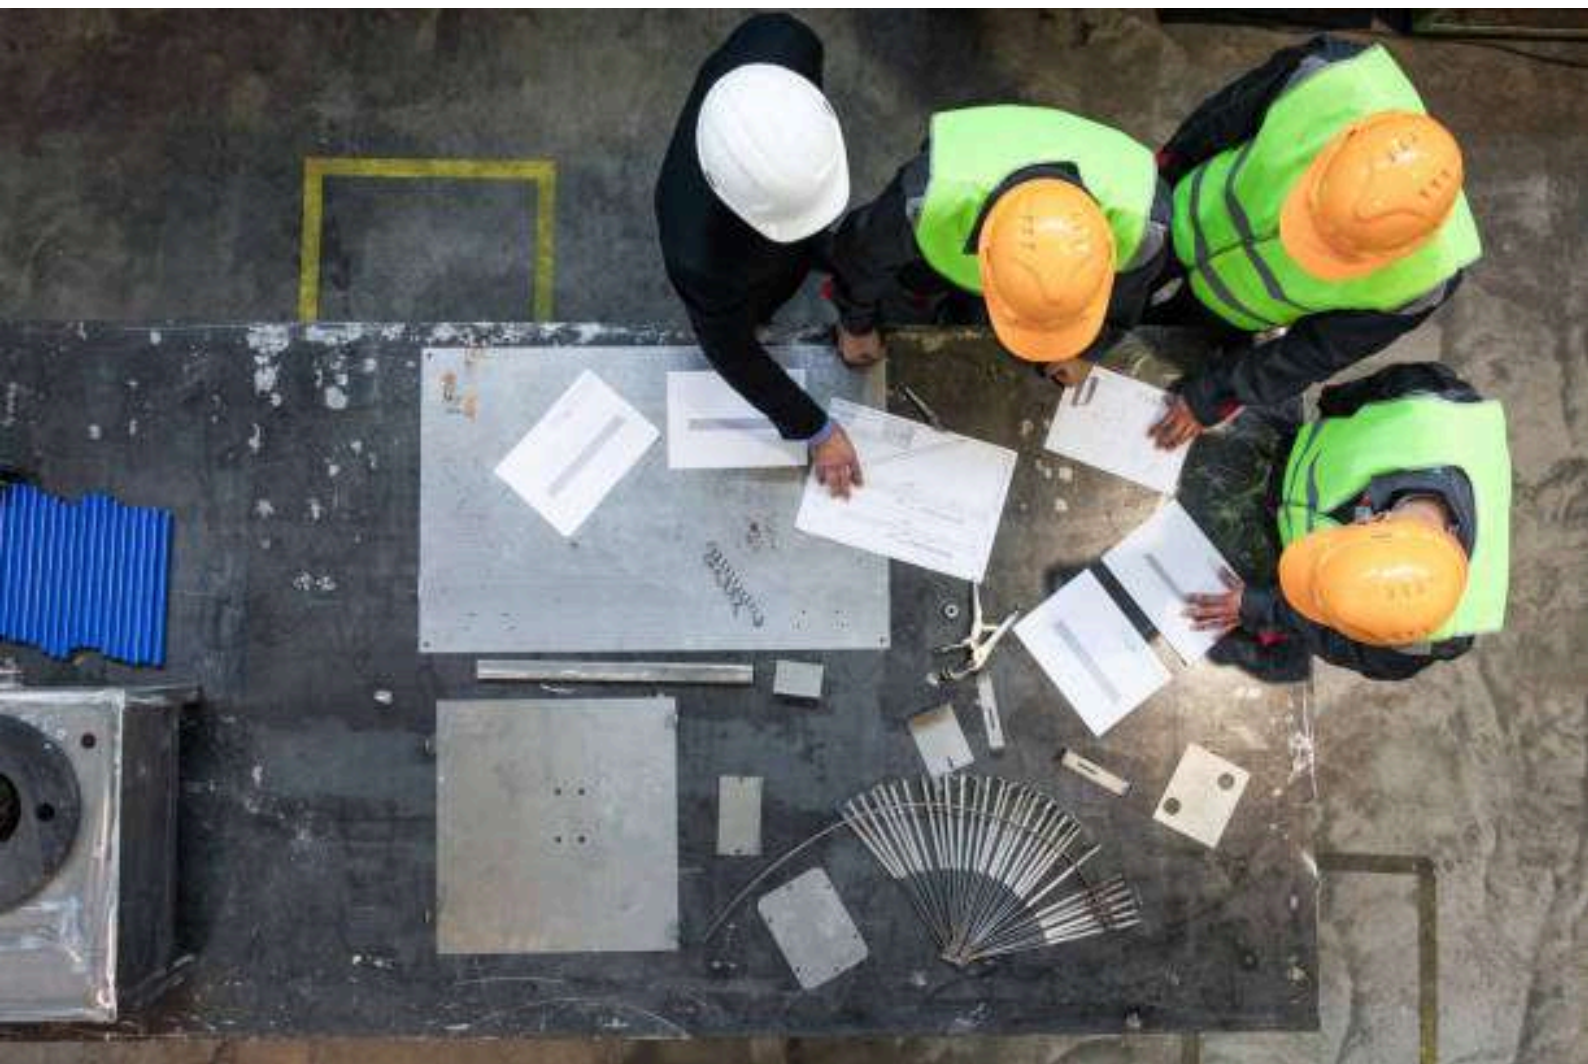

MISSION

- To deliver exceptional engineering and fabrication solutions, ensuring precise execution and quality. We strive to meet the diverse needs of our clients through innovative approaches in structural fabrication, metallic and non-metallic piping and maintenance. Our mission encompasses driving operational excellence while promoting sustainable practices in effluent treatment and wastewater management projects.

VISION

- To become the premier partner in the fabrication and engineering sector, recognized globally for our expertise in structural and piping solutions, ETP projects, and turnkey operations. We aim to lead through innovation, reliability, and unparalleled customer service, contributing to industrial progress and sustainable development.

Our Team

Engineers : 10+

Project Supervisors : 8+

Technicians and Fabricators : 100+

Non Skilled Labor : 50+

Safety Officers : 2+

Our Site Fabrication Division Specializes in Delivering Top-quality on-site Structural Steel Solutions to Construction, Manufacturing, and Industrial Projects Across India and International Markets. We Excel in Providing Functional, Efficient, and Customized Fabrication Services Directly at Project Sites, Ensuring the Highest Quality Standards and Exceptional Workmanship.

Ambica Enterprise's Expertise in Site Fabrication Enables Us to Handle Complex Projects With Tight Schedules, Minimizing Downtime and Ensuring Seamless Integration With Ongoing Operations. Our Team of Skilled Professionals and Advanced Tools Ensures Precision and Efficiency in Executing Large-scale Structures, Including Industrial Shades, Platforms, Supports, and Customized Frameworks.

Strategically Located in Ankeshwar, Ambica Enterprise Ensures Reliable on-site Services With Superior Coordination and Logistics Support. Our Commitment to Quality, Safety, and Timely Delivery Makes Us a Trusted Partner for Site Fabrication Solutions, Catering to Projects of Varying Complexity and Scale.

- **STEEL FABRICATION**
- **ERECTION**
- **COATINGS**
- **PLATFORMS**
- **STAIRWAYS**
- **CAGED LADDERS**
- **RAILINGS**
- **HANDRAILS**
- **SUPPORTS**
- **STACKS**
- **COLUMNS**
- **DUCTWORK**
- **HEAVY CUSTOM STEEL FABRICATION**
- **PLATE WORKS**
- **DUCTS AND TRANSITIONS**
- **LOUVERS AND DAMPERS**

METALLIC PIPING

We Specializes in Providing Comprehensive Onsite Metallic Piping Solutions Tailored to Meet Diverse Industrial Requirements. With a Commitment to Quality, Precision, and Efficiency, We Deliver End-to-end Piping Services, Ensuring Seamless Project Execution and Client Satisfaction. Our Expertise Spans a Variety of Materials and Services to Ensure Optimal Performance and Durability in Every Project.

Our Services:

Fabrication & Installation: Onsite Fabrication of Carbon Steel, SS 304, SS 316, and Alloy Steel.

Welding & Fitting: Precise Welding for Leak-proof, Durable Connections.

Inspection & Testing: Compliance With Standards, Pressure, and Leak Testing.

Maintenance & Repairs: Onsite Maintenance for Long-lasting Performance.

NON - METALLIC PIPING

We Specialized in Onsite Non-metallic Piping Solutions Tailored to Meet the Demanding Requirements of the Chemical Industry , Petro Chemical ,oil & Gas , Pharma and Water Treatment Plants. Our Team of Skilled Professionals Brings Proven Experience in Engineering, Construction, and Fabrication of Mechanical and Piping Systems, Ensuring Optimal Performance and Long-lasting Reliability for Critical Industrial Applications.

Our Services:

Fabrication & Installation: HDPE, UPVC, CPVC, PPRC, PPH

Inspection & Testing: Compliance With Standards, Pressure, and Leak Testing.

Maintenance & Repairs: Onsite Maintenance for Long-lasting Performance.

Ambica Enterprise Specializes in Providing Comprehensive Onsite Installation Solutions for Critical Industrial Equipment Such as Pressure Vessels, Pumps, Compressors, Heat Exchangers, and Reactors. Our Skilled Team of Professionals Has Extensive Experience in the Engineering, Construction, and Fabrication of Mechanical Systems, Ensuring Optimal Performance, Efficiency, and Long-lasting Reliability for All Types of Equipment Installations in Various Industrial Settings.

1. Pump Installation

Types Installed: Centrifugal Pumps, Submersible Pumps, Fire Pumps, Dosing Pumps, Gear Pumps

Key Installation Aspects:

Proper alignment and leveling, Piping connection as per flow direction, Vibration analysis for smooth operation, Performance testing before commissioning

2. Tank Installation

Types Installed: Storage Tanks, Pressure Tanks, Chemical Tanks, FRP Tanks

Key Installation Aspects:

Foundation and anchoring as per load capacity, Leakage and pressure testing before commissioning, Proper venting and safety valves installation

3. Compressor Installation

Types Installed: Rotary Screw Compressors, Reciprocating Compressors, Centrifugal Compressors

Key Installation Aspects:

Vibration isolation to reduce noise and wear, Proper cooling and ventilation setup, Checking electrical connections and safety features

4. Blower Installation

Types Installed: Centrifugal Blowers, Roots Blowers, Turbo Blowers

Key Installation Aspects:

Proper air ducting alignment, Balancing and vibration analysis, Ensuring efficient airflow and power optimization

Major Project : Waaree Energies Ltd

ETP PLANT

- Execution of large-scale fabrication projects, handling up to 350 tons of structural steel work with precision and efficiency.
- Placement and alignment of nearly 500 industrial units, including reactors, pumps, compressors, and other process equipment, ensuring seamless integration and operational reliability.
- Fabrication and Installation of approximately **150,000 ID** (Internal Diameter) and **200,000 IM** (Intermediate Diameter) metallic and non-metallic piping systems.
- Complete installation of Motor Control Centers (MCC) and Programmable Logic Controllers (PLC) panels, along with extensive cable laying, instrument cabling, and field instrumentation for industrial automation and control.
- The project supports an effluent treatment plant with a capacity of **10 MLD (Million Liters per Day)**, ensuring high-efficiency wastewater management solutions.

Major Projects: Adani Hazira Port Ltd

Ambica Enterprise has successfully executed numerous industrial projects specializing in structural fabrication, piping work and on-site ball valve repair and replacement. With a proven track record of excellence.

- **STRUCTURAL FABRICATION**

We have completed a variety of structural fabrication projects, like Pipe racks, Structural platforms, Cross over platforms, railing supply and installation and Jetty fender structural frame repair work. Our expertise ensures high-quality fabrication and installation with precision and durability.

- **PIPING WORK**

Our team has efficiently executed multiple piping projects, covering fabrication, installation, and maintenance across different industrial sectors. We have worked with carbon steel and stainless steel piping systems, ensuring leak-proof, high-performance solutions that comply with safety and industry regulations.

- **BALL VALVE REPAIR AND REPLACEMENT**

We have successfully conducted on-site ball valve repair and replacement, ensuring minimal downtime and smooth operations. Our skilled technicians have diagnosed and resolved valve issues with precision, performing repairs and replacements using high-quality parts to optimize performance.
